

# Baby Girl Scrapbook

With these instructions, you can make a complete 6x6" scrapbook to give to the mother-to-be, including 22 layout pages, a title page, and even a matching gift card!

## Supplies:

7006A My Creations Level 1 Baby Girl Scrapbook Kit  
1791 Baby Girl Buttons (Note: button pack contents may vary)  
6x6" Album (album comes with 5-10 sheets of white cardstock, depending on album type)  
1 package 6x6" Memory Protectors  
Adhesive  
Mini Paper Trimmer or other paper cutter  
Memory Glue DOTS or other adhesive to glue buttons

## Prepare your Papers:

1. Remove kit contents from package. Set the sheet of Yellow Cardstock and the pre-printed Reflections Sampler layout to one side (the one that looks like a patchwork quilt). Cut all the remaining pieces into quarters (yes, even the pre-printed layouts get cut).
2. Yellow Cardstock: Cut in half so you have 2 pieces that are 6x12". Set one piece aside for now. To the other piece, cut 4" off the long side to create a 4" x 12" strip. Cut the strip into 4" squares. You should have 3 squares that are 4x4" each. Cut the 2x12" strip into quarters to create 4 1x6" pieces.
3. Now pick up the 6x12" Yellow piece you set aside in step 2. Cut in half to form 2- 6x6" squares. Set one square aside. From the remaining square, cut 3 squares that are 2.5" square, and 1 rectangle that is 2.5" x 3.5". Any remaining pieces are scrap.
4. Pink B&T Paper: Cut one of the 6x6" squares to form a 3x6" piece and 2- 1.5"x6" pieces. Using paper trimmer, cut out the center 4" square of the 2<sup>nd</sup> piece of the Pink B&T paper quarters- you will have a 1" frame and a 4" square piece.
5. Striped B&T Paper: Cut one of the 6x6" squares to form a 3x6" piece and 2- 1.5"x6" pieces. Cut the 2<sup>nd</sup> 6x6" square into 2- 2"x6" strips and 2- 1"x6" strips. Cut the 3<sup>rd</sup> 6x6" square in half to form 2- 3x6" strips.
6. Pink Cardstock: Cut a 3.5"x6" piece and 2- 2.5" squares from one of the 6x6" quarters.
7. Reflections Sampler layout: Cut out the pink plaid square, including the yellow border around it. Trim the border as needed to make it even all around. Cut out the polka dotted square, including the yellow border around it. Cut out the small pink square, including the yellow border around it. Cut a 3.75" square from the pink plaid rectangle, but do NOT include the yellow border.

## Hints:

1. Button packs may vary. You may want/need to make adjustments to the specific buttons called for.
2. If you are giving this album as a gift, I recommend you go lightly on the adhesive. You'll notice that some page elements (like punchouts) need to overlap a photo. If the recipient will be adding her own photos to the pages, **lightly** adhere the punchouts, etc so they can be easily removed by the recipient.
3. Don't glue anything down until the end, when you have everything laid out the way you want it to be.

## Let's Create the Pages!
